# ARRIDERE

Services with a smile

## Product parameters

- The service is arranged by cleaning managers who are contracting partner's employees. They organize all employees carrying out the regular cleaning.
- The cleaners are well trained for the cleaning tasks, handling sanitation means, cleaning machinery, and care for special surfaces of the premises. At the same time, we make sure the cleaners have work permits (visa) in case of foreigners.
- The service can be nature-friendly, if required, and the staff can take care of waste separation (except dangerous waste)
- We use quality and well-tested machines (cleaning machines, industrial-grade vacuum cleaners, sweepers, extractors, polishers, pressure cleaners, etc.)
- Based on the wish and preference of the client, we install equipment for "paper programme," including holders and dispensers

## What we need to know to prepare the perfect offer

- Areas (sizes) to be cleaned, surface specification
- Required cleaning frequency
- Possible requirement for daily service (filling up sanitation material, cleaning of dishes in the kitchenettes and meeting rooms, operation of dishwashers, waste separation, ongoing cleaning)
- Environmental rules of the company – for selecting the system of cleaning and machinery, sanitation material, etc.
- Possibility of supplying the material
- Possibility of small-scale greenery maintenance or outdoor areas winter cleaning
